

BorderPass BD

National Smart Tourist Registration &
Checkpoint Management System

**Register Once.
Verify Everywhere.**

Secure Every Journey.

Easy
Registration

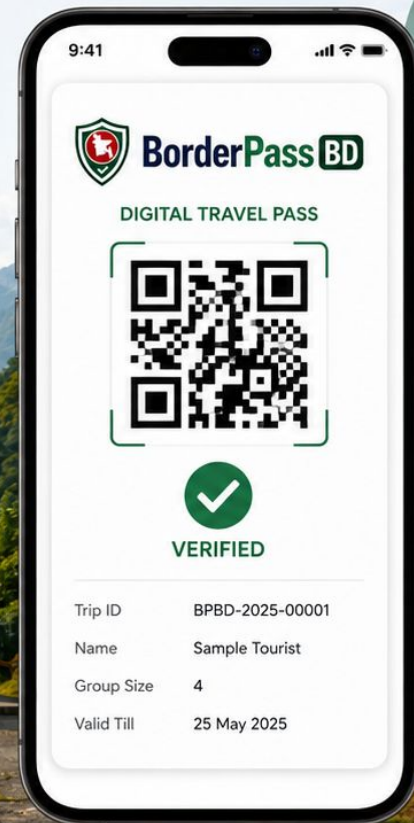

QR Based
Verification

Secure &
Reliable

Real-time
Monitoring

Frustrating for Everyone

The manual process creates inconvenience for tourists
and increases workload for officers.

Pain Points for Tourists

Fill the same form
at every checkpoint

Submit NID photocopy
again and again

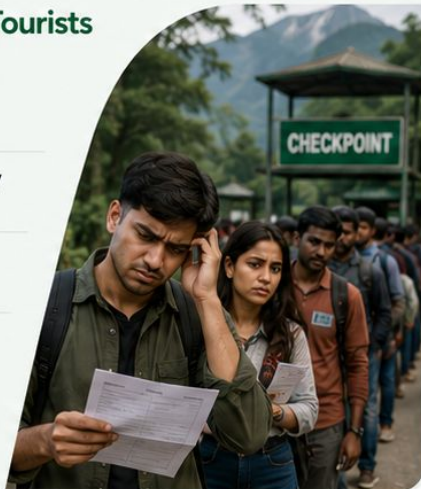

Long waiting time
and queues

Frustrating and
tiring experience

Carry multiple papers
and copies

Pain Points for Officers

Manually write the same
information repeatedly

Manage huge paper
records

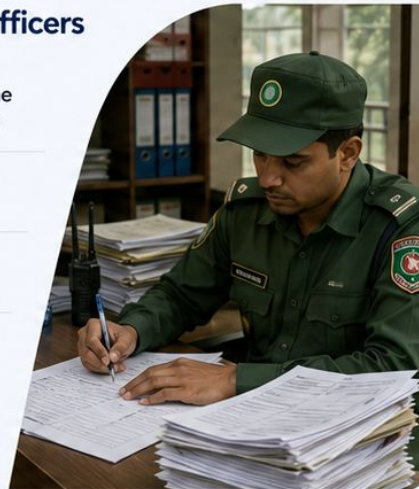

Hard to search
and verify

Time consuming
and inefficient

High chance of human
error and fake data

What We Need

A smart, digital solution that is fast, secure, and convenient for everyone.

**BorderPass BD**

Register Once. Verify Everywhere.

OUR VISION

To build a safer,
smarter and seamless
travel ecosystem
for **Bangladesh**.

Secure

Stronger security
at every checkpoint

Efficient

Faster verification,
less waiting time

Convenient

Hassle-free experience
for every traveler

Data-Driven

Real-time insights for
better decision making

**One Platform.
One Pass.
Every Checkpoint.**

Register Before You Travel

Tourists can pre-register from the app or web before their trip for a faster and smoother checkpoint experience.

Vulnerabilities

Insights That Matter

Turn millions of checkpoint records into actionable intelligence.

Tourist Movement Trends

Understand daily entry, exit and movement patterns across regions.

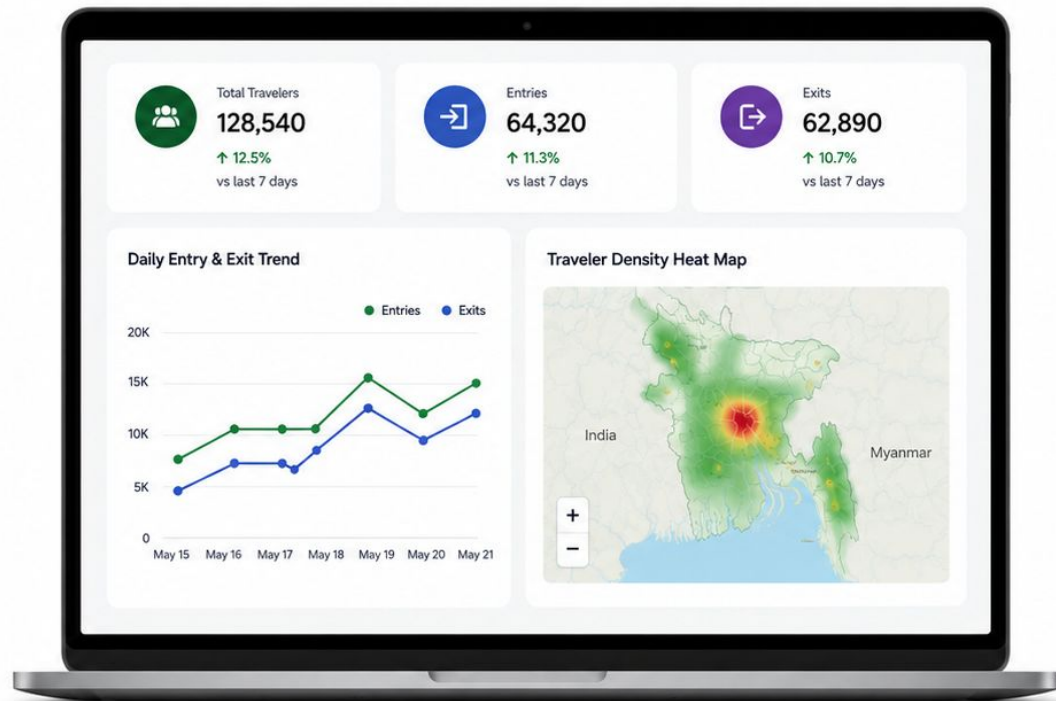

Route Popularity

Identify most visited routes and popular checkpoints.

Security Insights

Detect anomalies and strengthen security with data-driven alerts.

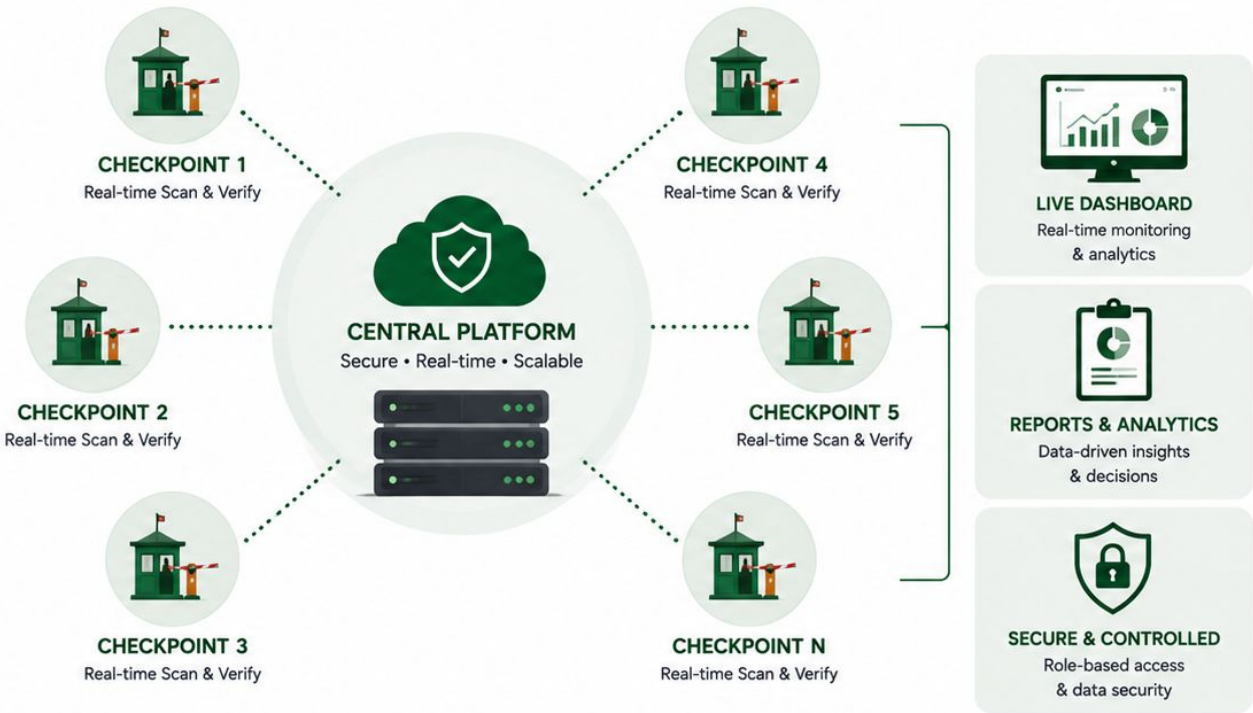

Data-driven decisions for a **safer Bangladesh.**

One Platform. Connected Everywhere.

All checkpoints are connected to a central platform in real-time for seamless data flow and control.

One System. All Checkpoints. Real-time Control.

Better coordination. Better security. Better Bangladesh.

Your Digital Pass, Your Key to Travel

A unique QR code is generated after successful registration. This is your single digital pass for all checkpoints.

Unique & Secure

Encrypted QR code linked to your verified information.

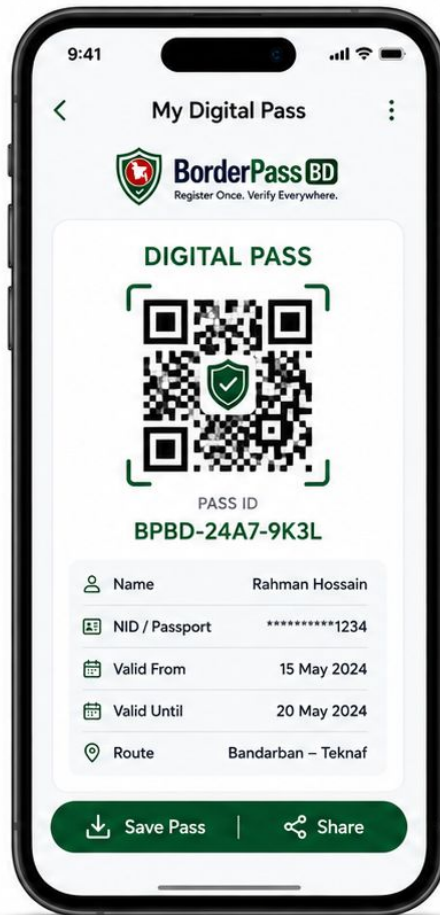

Valid for Your Trip

Valid for selected route, dates and duration.

Works Offline

QR can be scanned even in low connectivity areas.

BorderPass BD
Register Once. Verify Everywhere.

Scan & Go

Show your QR code at every checkpoint.

Instant Verification

Officers scan and verify in seconds.

Tamper Proof

Secure, encrypted and tamper-proof QR.

Travel History

All scans are logged for security and analytics.

Stay Informed. Act in Real-time.

Get instant alerts and notifications to take quick action and ensure smooth operations at every checkpoint.

Real-time Alerts

Instant notifications for unusual activities or threshold breaches.

Critical Notifications

High priority alerts for security risks and policy violations.

Multi-channel Delivery

Receive alerts via app, email and SMS.

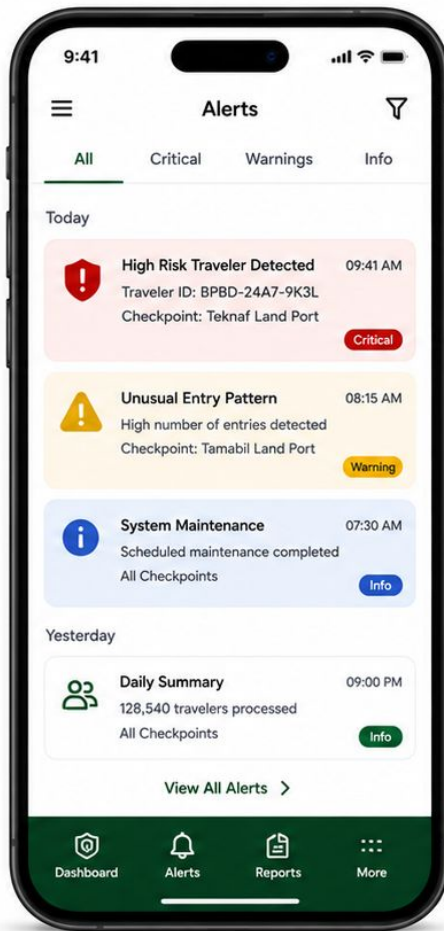

Customizable Rules

Set your own rules and thresholds for different scenarios.

Alert History

View, track and analyze all alerts in one place.

BorderPass BD

Register Once. Verify Everywhere.

Instant. Relevant. Actionable.

The right information at the right time keeps everyone safe and operations smooth.

Security Alerts

Detect and alert on potential security threats.

Operational Alerts

Notify for congestion, system issues and operational changes.

System Alerts

Stay updated on maintenance, updates and system status.

Quick Action

Take immediate action from the alert and minimize risks.

How BorderPass BD Works

Simple. Fast. Secure.

REGISTER ONCE

Tourist registers at the first checkpoint or pre-registers via the app.

GET DIGITAL PASS

A unique QR code is generated as your digital travel pass.

SCAN & VERIFY

At every checkpoint, officer scans the QR code and verifies in seconds.

AUTO LOG & SYNC

Visit is automatically logged and synced to the central system in real-time.

CENTRAL MONITORING

Authorities can monitor, analyze and manage tourist movement from one central dashboard.

**One Pass.
Every Checkpoint.**

No more repeated forms. No more long waits.
Just scan and go!

Right Access. Right Responsibility.

Role-based access ensures data security, accountability and efficient operations across all levels.

Role-Based Access

Assign roles with specific permissions and access levels.

Data Security

Restrict access to sensitive information and actions.

Accountability

Track user activities and maintain a clear audit trail.

Operational Flexibility

Manage users and roles easily as your operations grow.
